1. Our expertise

We have proven expertise on **cyber security**, and in particular:

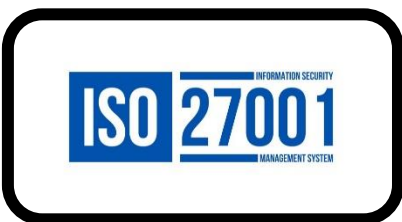

- Governance – **KPI's, Cyber organization and processes**
- **Cyber risk assessment**
- **Cyber maturity assessment (NIST or ISO 27001) and implementation**
- **Business Continuity**

2. Focus: Our NIST Cyber maturity assessment

Our analysis is based on the NIST Framework - Through 98 controls, we will evaluate your maturity based on the CMMI maturity scale.

This short evaluation is done through workshops and document review and we will quickly provide you with a roadmap to secure your **digital assets**.

3. Focus: Our ISO 27001 Assessment

Our analysis is based on the annex of the ISO 27001 norm - Through 114 controls, we will evaluate your maturity.

In the report, we will provide you a detailed guidance with priority for the implementation of the controls.
